Increase Sales & Profits
with Interactive Advertising
for retailers or manufacturers!

Advertise to your customers' mobile phones
and track their responses in real time!

Now you can have your own Interactive Marketing System!

Multiply the impact of your co-op advertising dollars by having your product promotions distributed into your shoppers' mobile devices. It's like sending your sales staff home with your customer inside their cell phone!

At no charge to your customer, using permission-based Bluetooth technology!

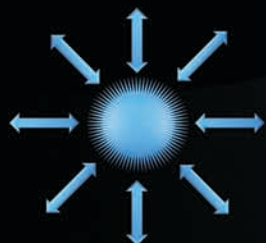

It's all possible with iSign's Interactive Marketing System at a fraction of the cost of traditional promotional methods.

ATTRACT. INTERACT. TRANSACT.
